

CUMULATIVE INDEX 1992

Volume 30

January	BREAST IMAGING: CURRENT STATUS AND FUTURE DIRECTIONS, pages 1-290
March	EMERGENCY DEPARTMENT RADIOLOGY, pages 291-506
May	RADIOLOGY OF THE IMMUNOCOMPROMISED PATIENT, pages 507-662
July	THE FEMALE PELVIS, pages 663-864
September	ULTRASONOGRAPHY OF SMALL PARTS, pages 865-1119
November	OCCUPATIONAL LUNG DISEASE, pages 1121-1288

Note: Page numbers of issue and article titles are in **boldface** type.

- Abdomen, acute. See *Acute abdomen*.
 gunshot wounds of, 314-315
 intraoperative ultrasonography of, 1097
 trauma to, blunt. See *Blunt abdominal trauma*.
 interventional radiology of, 436-438
- Abdominal abnormalities, in immunocompromised patients, 579-596
 after organ transplantation, lymphoproliferative disorders, 601-602, 606
 hepatobiliary infections, 585-588
 malignancies, 588-594
 opportunistic infections, 580-584
 pyogenic infections, 584-585
 with AIDS, lymphoproliferative disorders, 607-608
 renal involvement, 594-595
- Abdominal aorta, blunt trauma to, CT of, 385, 387
- Abdominal masses, neonatal, nuclear medicine studies of, 468-469
- Abdominal pain, acute. See *Acute abdominal pain*.
- Abscesses, abdominal, in AIDS, 562
 in Crohn's disease, CT of, 837-838
 breast, evaluation of, 74
 ultrasonography of, 1000
 ultrasonography-guided needle biopsy of, 173, 175
 pelvic, postoperative, CT of, 835
 tubo-ovarian, transvaginal sonography of, 683-684
- Acalculous cholecystitis, ultrasonography of, 393-394
- Acquired immunodeficiency syndrome. See *AIDS*.
- Acute abdomen, ultrasonography of, 389-404
 acute cholecystitis, 389-394
 acalculous, 393-394
 calculous, 390-391
 complications of, 392-393
 technique for, 390
 appendicitis, 399-403
 appendiceal perforation, 401
 differential diagnosis in, 401, 403
 in children, 1019-1020
 in girls, 749-750
 inflamed appendix, 400-401
 technique for, 400
 choledocholithiasis, 394-399
 complications of, 399
 extrahepatic, 396-397
 intrahepatic, 397, 399
 technique for, 395-396
- Acute abdominal pain, and vomiting, imaging of, in children, 441-453
 acute appendicitis, 449-452
 hypertrophic pyloric stenosis, 444-446
 intussusception, 446-449
 malrotation and midgut volvulus, 441-444
- Acute cerebral trauma, CT of, 325-352
 extra-axial processes, 327, 330-338
 epidural hematomas, 327, 330, 332
 subarachnoid hemorrhage, 338
 subdural hematomas, 332, 335-338
 follow-up after, 349-350
 intra-axial processes, 340, 344-349
 cerebral infarction, 344-345
 contusions, 344
 diffuse axonal injuries, 345-346
 edema and mass effect, 340, 344
 intraparenchymal hematomas, 344
 skull fractures, 346, 349
 mechanisms of, 325-327
 technical considerations in, 325
- MR imaging of, 353-366
 brainstem injuries, 355-356
 cortical contusions, 354
 diffuse axonal injuries, 353-354
 epidural hematomas, 358-359
 in children, 364-365
 intracerebral hematomas, 359-360
 intraventricular hemorrhage, 359
 post-traumatic cerebral infarction, 360
 subarachnoid hemorrhage, 359
 subcortical gray matter injuries, 354-355

- Acute cerebral trauma (*Continued*)
 subdural hematomas, 356, 358
 vascular injuries, 360-361, 363-364
- Acute cholecystitis, nuclear medicine studies of, 460-461
 ultrasonography of. *See Acute abdomen.*
- Acute tubular necrosis, after renal transplantation, ultrasonography of, 1060
- Adenocarcinomas, endoscopic ultrasonography of, esophageal, 1071-1072
 gastric, 1075
 pancreatic, 1080-1081
- Adenomas, thyroid, ultrasonography of, 948
- Adenomatoid tumors, epididymal, ultrasonography of, 1044
- Adenomyosis, MR imaging of, 778
 transvaginal sonography of, 708, 711
- Adenosis, sclerosing, of breast, evaluation of, 75, 78, 80
- Adenoviruses, in immunocompromised children, 643-645
- Adnexa, transvaginal sonography of, 962, 964-966
 for aspiration, 971-973
- Adnexal masses, color flow Doppler sonography of, 740
 transvaginal sonography of, 677-691, 727
 adnexal torsion, 685-686
 congenital anomalies, 688-690
 ectopic pregnancy, 686-687
 endometriosis, 684-685
 functional ovarian cysts, 678-679
 hydrosalpinx, 682-683
 indications for, 677-678
 leiomyomas, 687-688
 ovarian remnant syndrome, 683
 parovarian cysts, 682
 polycystic ovary disease, 679-680, 682
 tubo-ovarian abscesses, 683-684
- Adrenal glands, ultrasonography of, in children, 1022-1023
- Adrenal rest tumors, testicular, ultrasonography of, 1042, 1044
- Adult respiratory distress syndrome, lung trauma and, 302-303
- AIDS. *See also HIV infection; Immunocompromised patients.*
 abdominal abnormalities in. *See Abdominal abnormalities.*
 gastrointestinal disease in. *See Gastrointestinal disease.*
 neuroradiology in. *See Neuroradiology.*
 pediatric. *See Pediatric AIDS; Pediatric HIV infection.*
 thoracic disease in. *See Thoracic disease.*
- Airway dysfunction, occupational, 1129-1130
- Airways, trauma to, 294-296
- Alimentary duplication, ultrasonography of, in children, 1015
- Aluminum, in occupational lung disease, 1127
- Alveolitis, lymphocytic, in hypersensitivity pneumonitis, 1222
- Ambiguous genitalia, ultrasonography of, in infants and neonates, 746-747
- Amenorrhea, ultrasonography of, in adolescents, 750-751
- Ammonia, in chemical pneumonitis, 1234
- Aneurysms, acute cerebral, MR imaging of, 361
- Angiitis, cerebral granulomatous, in AIDS, neuroradiology of, 621
- Angiography, of trauma, to chest and abdomen, 436, 438
 to extremities, 431
 to head and neck, 434
 to pelvis, 429, 431
- Angioplasty, transluminal, ultrasonography in, 900
- Ankles, fractures of, easily missed, 490
- Anterior compression view, in mammography, 44-45
- Antigen presenting cells, in immune function and dysfunction, 515-516
- Anus, imperforate, ultrasonography of, in children, 1016, 1018
- Aorta, abdominal, blunt trauma to, CT of, 385, 387
 trauma to, 298-300
- Appendicitis, CT of, 839
 imaging of, in children, 449-452
 ultrasonography of. *See Acute abdomen.*
- Arterial occlusion, acute cerebral, MR imaging of, 360-361
- Arterial vascular ultrasonography, 865-878
 of arterial grafts, 873-874
 of arteriovenous fistulas, 875-876
 of dialysis access grafts, 876-877
 of head and neck, 865-870
 of lower limbs, 870-873
 of pseudoaneurysms, 874-875
 of vascular impotence, 877
- Arteriography, of extremity gunshot wounds, 320
- Arteriovenous fistulas, acute cerebral, MR imaging of, 361
- Asbestos-related disorders, CT of, 1191-1207
 for asbestosis, 1195
 for benign exudative effusions, 1192-1193
 for benign fibrotic masses, 1194-1195
 for diffuse pleural thickening, 1193
 for pleural plaques, 1191-1192
 for rounded atelectasis, 1193-1194
 for visceral pleural changes, 1193
 technique for, 1191
 high-resolution CT of, 1196-1199
 for asbestosis, 1199, 1206
 for curvilinear subpleural lines, 1197
 for ground glass density, 1199
 for honeycombing, 1199
 for parenchymal bands, 1198-1199
 for subpleural dependent density, 1198
 for thickened interstitial short lines, 1197-1198
 mesothelioma. *See Mesothelioma.*
 plain films of, 1177-1189
 for asbestosis, 1184-1185
 for benign fibrotic masses, 1186
 for diffuse pleural thickening, 1180, 1182
 for lung cancer, 1186-1187, 1261
 for pleural calcifications, 1183-1184
 for pleural effusions, 1182-1183
 for pleural plaques, 1178-1180, 1192
 for rounded atelectasis, 1185-1186
 for transpulmonary bands, 1186
- Asbestosis, clinical features of, 1125-1126
 CT of, 1195
 high-resolution CT of, 1199, 1206
 plain films of, 1184-1185
- Aspergillus pneumonia, in HIV-negative immunocompromised patients, 528-529
- Asthma, occupational, 1129-1130
- Atelectasis, rounded, asbestos and, CT of, 1193-1195
 asbestos and, plain films of, 1185-1186
 in mesothelioma, 1251-1252
- Atherectomy, ultrasonography in, 901-902
- Augmentation mammoplasty, mammography after, 48-49, 51-52, 131-134

- prostheses in, ultrasonography of, 1007
 Autogenous tissue transfer, in breast, mammography after, 130
 Autologous blood clots, for embolization, 429
 Axillary view, in mammography, 45
 Axonal injuries, diffuse, CT of, 345-346
- Bacterial infections, in AIDS, neuroradiology of, 617
 thoracic, 549
 Bacterial pneumonia, in HIV-negative immunocompromised patients, 527-528
 Bacterial superinfections, in immunocompromised children, 646-647
 Baker's cysts, ultrasonography of, 919-910
 Balloons, for embolization, 428-429, 433, 434-435, 438
 Barium contrast studies, of graft-versus-host disease, in bone marrow transplantation, 569
 Barium enemas, in children, of acute appendicitis, 450, 452
 of intussusception, 446-448
 of malrotation and midgut volvulus, 443
 of pseudomembranous colitis, in bone marrow transplantation, 572
 Basedow's disease, ultrasonography of, 947-948
 Bedfast patient, mammography in, 45
 Beryllium, in occupational lung disease. *See Chronic beryllium disease.*
 Biceps tendon, ultrasonography of, 930-932, 933, 936-938
 Bicornuate uterus, MR imaging of, 780
 transvaginal sonography of, 689-690, 700
 ultrasonography of, 960
 Bile duct obstruction, nuclear medicine studies of, 461
 Bile leak, nuclear medicine studies of, 461, 463
 Biliary aspiration, of acute cholecystitis, 394
 Biliary disease, in AIDS, 561-562
 Biliary tract, intraoperative ultrasonography of, 1089-1090
 Biopsy, in AIDS, of mycobacterial infections, 552
 of opportunistic infections, 582
 in HIV-negative immunocompromised patients, of thoracic disease, 534
 of breast masses, benign, with lumpectomy/radiation therapy, mammography after. *See Postoperative breast.*
 fine needle aspiration. *See Fine needle aspiration biopsy.*
 needle. *See Needle biopsy.*
 Bladder, CT of, for blunt trauma, 383, 385
 for postpartum injuries, 836-837
 CT vs. MR imaging of. *See Lower urinary tract.*
 transvaginal sonography of, 673-674
 urinary, transvaginal sonography of, 970
 Blast wounds, of chest, 293-294, 298
 Bleeding, gastrointestinal, nuclear medicine studies of, 455-460
 Blood clots, autologous, for embolization, 429
 Blunt abdominal trauma, CT of, 367-388
 bowel and mesenteric injuries, 379, 382
 extra-abdominal injuries with, 385-387
 hepatic injuries, 377-378
 pancreatic injuries, 378-379
 peritoneal injuries, 370-371
 splenic injuries, 371-373
 technique for, 369-370
 triage in, 367-369
 urinary tract injuries, 382-385
 bladder, 383, 385
 renal, 382-383
 B-mode ultrasonography, of venous thromboembolic disease, 882
 Bone marrow transplantation, and gastrointestinal disease. *See Gastrointestinal disease.*
 and immune dysfunction, 520
 Bones, ultrasonography of, 917, 921-923
 Bowel, blunt trauma to, CT of, 379, 382
 inflammatory diseases of, 837-840
 Bowel gas, radiologic patterns of, in gastrointestinal tract obstruction, 413
 Brain, intraoperative ultrasonography of, 1094-1095
 Brainstem injuries, MR imaging of, 355-356
 Breast, imaging of, issue on, 1-290
 Breast masses, after lumpectomy/benign biopsy/radiation therapy, mammography of, 111, 113-114
 evaluation of, 67-92
 benign stellate lesions, 72-75
 breast abscesses, 74
 extra-abdominal desmoids, 75
 fat necrosis, 74
 postsurgical scars, 72
 radial scars, 74-75
 sclerosing adenosis, 75
 circumscribed masses, 75-89
 calcification in, 82-83
 circumscribed carcinoma, 81
 cystosarcoma phylloides/giant fibroadenomas, 80-81
 cysts, 77
 fat in, 82
 fibroadenomas, 75, 77
 galactoceles, 80
 halo sign in, 84
 hamartomas and lipomas, 77-78
 hematomas, 80
 intramammary lymph nodes, 77
 lymphomas, 81
 margins in, 82
 mass density in, 84
 metastases to breast, 81-82
 multiplicity in, 83
 myoblastomas, 82
 papillomas, 80
 sarcomas, 81
 sclerosing adenosis and fibrosis, 78, 80
 shape in, 82
 size stability in, 83
 establishing presence or absence of mass, 67-70
 nipple shadow in, 68
 normal tissue density in, 67-68
 skin lesions in, 68
 sternal insertion of pectoralis muscle in, 68, 70
 stellate carcinoma, 70-72
 fine needle aspiration biopsy of. *See Fine needle aspiration biopsy.*
 management of, circumscribed masses, 84-89
 biopsy costs in, 86
 effect on prognosis, 86
 frequency in, 85-86
 multiple masses, 88
 patient concerns in, 86
 prevalence in, 85
 second opinions in, 88
 solitary well-defined masses, 86-88
 with low specificity for malignancy, 84-85
 palpable masses, 89-90
 needle biopsy of. *See Needle biopsy.*

- Breast masses (*Continued*)
 prebiopsy needle localization of. See *Prebiopsy needle localization*.
- Breasts, augmented, mammography of, 48-49, 51-52, 131-134
 calcifications in. See *Calcifications*.
 postoperative. See *Postoperative breast*.
 reconstruction of, mammography after, 129-131
 ultrasonography of, 993-1009
 after lumpectomy/benign biopsy/radiation therapy, 124
 anatomy in, 996-997
 ancillary, 1007
 Doppler, 1007
 for abscesses, 1000
 for carcinoma, 1004-1005
 for complicated cysts, 998
 for fibroadenomas, 1003-1004
 for galactoceles, 999
 for hematomas and seromas, 1000
 for intracystic carcinoma, 999
 for simple cysts, 997-998
 for solid abnormalities, 1000, 1003-1005
 technique for, 994-996
 to guide needle aspiration and localization, 1005-1007
 uses and limitations of, 993-994
- Brenner tumors, transvaginal sonography of, 722
- Bronchitis, industrial, with coal worker's pneumoconiosis, CT of, 1168-1169
- Bronchoalveolar lymphocyte transformation, in chronic beryllium disease, 1216
- Bruton's hypogammaglobulinemia, immune deficiency in, 519
- Bucky, large vs. small, in mammography, 44
- Bursae, ultrasonography of, 909-913
- CA 125, in ovarian carcinoma, 720
- Cadmium, in chemical pneumonitis, 1239
 in occupational lung disease, 1127
- Calcifications, in breast, evaluation of, 82-83
 mammography of, 93-105
 after lumpectomy/benign biopsy/radiation therapy, 120-123
 after mammoplasty, 134
 artifacts in, 101, 103
 benign, 99-101
 dermal calcifications, 100
 fat necrosis, 101
 fibroadenomas, 99
 milk of calcium in cysts, 100
 secretory disease, 100-101
 vascular calcifications, 99-100
 improving depiction of, 94-95
 indeterminate, 98-99
 malignant, 95-98
- Calculi, intraoperative ultrasonography of, biliary tract, 1089-1090
 kidney, 1095
 ureteral, CT vs. MR imaging of, 854
- Calculus cholecystitis, ultrasonography of, 390-391
- Calc veins, thromboembolic disease of, ultrasonography of, 887-888
- Cancer, of lung. See *Lung cancer*.
 organ transplantation and, 573
 transvaginal sonography of, endometrial, 960
 ovarian, in screening, 969-970
- Candida* infections, gastrointestinal, in AIDS, 558
 in immunocompromised children, 652-654
- Candidal pneumonia, in HIV-negative immunocompromised patients, 529
- Caplan's syndrome, clinical features of, 1153-1154
 CT of, 1167
- Carcinoma, breast, breast conservation in, 109-110
 circumscribed, evaluation of, 81
 intraductal, mammography of, 95-98
 stellate, evaluation of, 70-72
 ultrasonography-guided needle biopsy of, 176, 178
- CT of, cervical, 818-822
 endometrial, 823-825
 ovarian, 826-829
- CT vs. MR imaging of, bladder, 843-848
- MR imaging of, cervical, 790-793
 endometrial, 793-796
 ovarian, 797-800
 in pregnancy, 801
 vaginal, 796-797
 vulvar, 796-797
- transvaginal sonography of, cervical, 714
 endometrial, 711-714
 fallopian tube, 714, 717
 ovarian, 717-730
 in postmenopausal patients, 760
- ultrasonography of, breast, 1004-1005
 intracystic, 999
 testicular, embryonal, 1041
- Cardiac trauma, imaging of, 297-298
- Cardiovascular system, intraoperative ultrasonography of, 1092-1094
- Carotid arteries, ultrasonography of, 865, 867-870
- Carotid-cavernous fistulas, acute cerebral, MR imaging of, 361
- Caudocranial view, in mammography, 45
- Cecal volvulus, plain films of, 422
- Central nervous system, in AIDS, neuroradiology of, in children, 624-625
- Cerebral infarction, in AIDS, neuroradiology of, 621-622
 post-traumatic, CT of, 344-345
 MR imaging of, 360
- Cerebral trauma, acute. See *Acute cerebral trauma*.
- Cervical carcinoma, CT of, 818-822
 MR imaging of, 790-793
 transvaginal sonography of, 714
- Cervical spine, fractures of, easily missed, 475-477
- Cervix, MR imaging of, 771-772
 transvaginal sonography of, 667-668
- Change-of-angle views, in mammography, 40
- Chédiak-Higashi syndrome, immune deficiency in, 518
- Chemical pneumonitis, 1231-1243
 ammonia in, 1234
 cadmium in, 1239
 chlorine in, 1234, 1237
 classification of, 1231
 CT of, 1232
 hydrogen sulfide in, 1237
 mercury in, 1239
 metal fume fever in, 1239
 mineral oils in, 1232
 nickel in, 1239
 nitrogen oxides in, 1237-1238
 organophosphates in, 1232
 paraquat in, 1232-1233
 pathophysiology of, 1231
 phosgene in, 1238
 plain films of, 1232

- polyvinyl chloride in, 1233-1234
 smoke inhalation in, 1241
 sulfur dioxide in, 1238-1239
 thesaurosis in, 1234
 vanadium in, 1239, 1241
- Chemotherapy, and immune dysfunction, 520
- Chest, CT of, for blunt trauma, 385
 imaging of, for trauma, 291-306
 aortic and great vessel trauma, 298-300
 cardiac trauma, 297-298
 diaphragmatic rupture, 300-301
 esophageal rupture, 297
 fat emboli, 303-304
 fractures, 291-292
 easily missed, 485
 indirect effects of trauma on lungs, 301-303
 knife, gun, and blast injuries, 293-294, 298. See also *Gunshot wounds*.
 lung herniations, 296
 lung torsion, 297
 pulmonary parenchymal trauma, 292-293
 thoracic duct disruption, 297
 trachea and airways damage, 294-296
 interventional radiology of, for trauma, 436-438
 ultrasonography of, in children. See *Pediatric ultrasonography*.
- Child abuse, acute cerebral trauma in, MR imaging of, 365
- Chlorine, in chemical pneumonitis, 1234, 1237
- Chlormethyl ether/bischlormethyl ether, in occupational lung cancer, 1264
- Cholangitis, in AIDS, 585, 588
- Cholecystitis, acute, nuclear medicine studies of, 460-461
 ultrasonography of. See *Acute abdomen*.
- Choledochal cysts, ultrasonography of, in children, 1015-1016
- Choledocholithiasis, ultrasonography of. See *Acute abdomen*.
- Cholescintigraphy, of acute cholecystitis, 394
- Choriocarcinoma, testicular, ultrasonography of, 1041-1042
- Choriodecidual blood flow, color flow Doppler sonography of, 738
 transvaginal sonography of, 701
- Chorionic villus sampling, ultrasonography in, 971
- Choroidal detachment, ultrasonography of, 1109
- Chromium, in occupational lung cancer, 1262
- Chronic beryllium disease, 1209-1217
 chemical properties and applications in, 1209
 clinical features of, 1127-1128
 diagnosis of, 1214-1216
 epidemiology of, 1210-1211
 imaging of, 1211-1214
 pathogenesis of, 1214-1216
 prognosis for, 1216
 treatment of, 1216
 vs. acute beryllium disease, 1209-1210, 1211
- Chronic granulomatous disease, immune deficiency in, 518
- Chrysotile, and mesothelioma, 1246
- Circumscribed masses, of breast, evaluation of. See *Breast masses*.
- Clavicle, fractures of, easily missed, 485
- Clear cell carcinoma, transvaginal sonography of, 722
- Cleavage view, in mammography, 40
- Cleopatra view, in mammography, 40
- Clomiphene citrate, to induce ovulation, monitoring of, transvaginal sonography in, 696-697
- Coal worker's pneumoconiosis, clinical features of, 1126
 CT of, 1155-1171
 for associated disorders, 1167-1171
 emphysema, 1167-1168
 fibrosis, 1169-1170
 hemoptysis, 1171
 hilar and mediastinal lymph nodes, 1170
 industrial bronchitis, 1168-1169
 lung cancer, 1170-1171
 for Caplan's syndrome, 1167
 for parenchymal micronodules, 1157-1160
 for parenchymal nodules, 1165
 for progressive massive fibrosis, 1165-1166
 for subpleural micronodules, 1160, 1163-1165
 future directions in, 1174
 indications for, 1174
 physiologic basis of, 1155-1157
 protocol for, 1172-1173
 vs. plain films, 1173-1174
 imaging of, 1151-1154
- Cobalt, in occupational lung disease, 1128
- Coils, for embolization, 428, 433, 434-435, 438
- Colitis, pseudomembranous, bone marrow transplantation and, 572-573
- Collagen, microfibrillar, for embolization, 429
- Colon obstruction, vs. toxic megacolon, 424
- Color flow Doppler sonography, in infertility. See *Infertility*.
 intraoperative, 1099-1101
 of breast, after lumpectomy/benign biopsy/radiation therapy, 124
 of endometrial carcinoma, 713, 714
 of endometrium, in postmenopausal patients, 765
 of intrarenal arteriovenous fistulas and pseudoaneurysms, after renal transplantation, 1056-1057
 of ovarian carcinoma, 720
 of ovaries, in postmenopausal patients, 761
 of pelvis. See *Pelvis*.
 of renal arterial stenoses, after renal transplantation, 1056

 renal. *See Renal transplantation.*
- Transpulmonary bands, asbestos and, plain films of, 1186
- Transvaginal sonography, 955-976
 Doppler, 966, 968-969
 in infertility. *See Infertility.*
 in oocyte retrieval, 970
 in ovarian cancer screening, 969-970
 in ovary, tube, and adnexal aspiration, 971-973
 in postmenopausal patients. *See Postmenopausal patients.*
 in pregnancy interventions, 970-971
 of adnexal masses. *See Adnexal masses.*
 of ovaries and adnexa, 962, 964-966
 of pelvic neoplasms. *See Pelvic neoplasms.*
 of pelvis. *See Pelvis.*
 of pre- and postmenopausal uterus, 956-962
 benign endometrial abnormalities, 958-960
 early intrauterine pregnancy, 956, 958
 endometrium, 956
 malignant endometrial abnormalities, 960
 myometrium, 961-962
 of urinary bladder, 970
 technique for, 955-956
- Transverse rectus abdominis myocutaneous flap, in breast, mammography after, 130
- Trauma, acute cerebral. *See Acute cerebral trauma.*
 cardiac, 297-298
 interventional radiology of. *See Interventional radiology.*
 to abdomen, blunt. *See Blunt abdominal trauma.*
 to aorta, 298-300
 to chest. *See Chest.*
 to great vessels, 298-300
 to pulmonary parenchyma, 292-293
 to trachea and airways, 294-296
- Tubal cannulation, in infertility, transvaginal sonography-guided, 699
- Tuberculosis, in AIDS, 559-561
 in HIV-negative immunocompromised patients, 527
- Tubo-ovarian abscesses, transvaginal sonography of, 683-684
- Tumors, endoscopic ultrasonography of, duodenal, 1079

- esophageal, 1070-1072
 gastric, 1075-1076
 pancreatic, 1080-1081
 in immunocompromised children, 655
 intraoperative ultrasonography of, endocrine, 1095
 gastrointestinal, 1096-1097
 liver, 1088
 lung and mediastinum, 1097
 recurrent, of breast, after lumpectomy/benign biopsy/
 radiation therapy, mammography of, 123-124
 ultrasonography of, intraocular, 1109-1110
 neurogenic, 925
 ovarian, in children, 1024
 testicular, 1041-1044
 Typhlitis, bone marrow transplantation and, 571-572
 ultrasonography of, in children, 1021-1022
- Ultrasonography, arterial vascular.** See *Arterial vascular ultrasonography.*
 endoscopic, of upper gastrointestinal tract. See *Upper gastrointestinal tract.*
 intraoperative. See *Intraoperative ultrasonography.*
 intravascular. See *Intravascular ultrasonography.*
 musculoskeletal. See *Musculoskeletal ultrasonography.*
 of abdominal abnormalities, in immunocompromised patients, indications for, 579-580
 of acute abdomen. See *Acute abdomen.*
 of breasts. See *Breasts.*
 of distal ureteral calculi, 854
 of fetus. See *Fetus.*
 of neck. See *Neck.*
 of pelvis. See *Pelvis.*
 of renal transplantation. See *Renal transplantation.*
 of shoulders. See *Shoulders.*
 of small parts, issue on, **865-1119**
 of testes and scrotum. See *Scrotum.*
 of ureteroceles, 855
 of urethral diverticula, 851
 ophthalmic. See *Ophthalmic ultrasonography.*
 pediatric. See *Pediatric ultrasonography.*
 to guide needle biopsy, of breast masses. See *Needle biopsy.*
 transvaginal. See *Transvaginal sonography.*
 venous. See *Venous ultrasonography.*
 Undescended testes, ultrasonography of, 1047-1048
 Upper gastrointestinal series, in children, of
 hypertrophic pyloric stenosis, 446
 of malrotation and midgut volvulus, 442-443
 Upper gastrointestinal tract, endoscopic
 ultrasonography of, **1067-1083**
 duodenum, 1078-1079
 esophagus, 1069-1072
 gastrointestinal wall, 1069
 historical aspects of, 1067
 instrumentation for, 1067-1068
 pancreas, 1079-1081
 stomach, 1072-1077
 technique for, 1068-1069
 Ureteroceles, CT vs. MR imaging of, 854-855
 Ureterography, of ureteral neoplasms, 852
 Ureters, pelvic, CT vs. MR imaging of, 852-855
 transvaginal sonography of, 674
 Urethra, transvaginal sonography of, 674
 Urethral diverticula, CT vs. MR imaging of, 850-851
 Urinary bladder, transvaginal sonography of, 970
 Urinary tract, blunt trauma to, CT of, 382-385
 Urography, of bladder carcinoma, 844
 of bladder endometriosis, 848
 of distal ureteral calculi, 854
 of retroperitoneal fibrosis, 856
 of ureteral endometriosis, 853-854
 of ureteral neoplasms, 852
 of ureteroceles, 855
 Uterus, color flow Doppler sonography of, 737-738
 CT of, for benign masses, 831-832
 MR imaging of, for benign disease, 777-781
 adenomyosis, 778
 leiomyomas, 777-778
 müllerian duct anomalies, 778, 780-781
 for mesenchymal tumors, 796
 in children, 809
 normal anatomy in, 770-772
 transvaginal sonography of, 667-668, 689-690, 700
 for neoplasms, 703-711
 pre- and postmenopausal. See *Transvaginal sonography.*
 ultrasonography of, for anomalies, in children, 1025-1027
- Vagina, anomalies of, ultrasonography of, in children, 1025-1027
 MR imaging of, 772-773
 Vaginal carcinoma, MR imaging of, 796-797
 Vaginal discharge, ultrasonography of, in girls, 750
 Vanadium, in chemical pneumonitis, 1239, 1241
 Varicella-zoster virus, in AIDS, neuroradiology of, 619, 621
 in immunocompromised children, 641
 Varices, endoscopic ultrasonography of, esophageal, 1070
 gastric, 1073-1074
 Varicoceles, ultrasonography of, 1047
 Vascular calcifications, in breast, mammography of, 99-100
 Vascular injuries, acute cerebral, MR imaging of, 360-361, 363-364
 Vascular lesions, ovarian, transvaginal sonography of, 730
 Vena cava, inferior, blunt trauma to, CT of, 385, 387
 Venography, vs. ultrasonography, of venous thromboembolic disease, 890
 Venous occlusion, acute cerebral, MR imaging of, 361, 363-364
 Venous ultrasonography, of venous thromboembolic disease, **879-894**
 anatomy in, 879-880
 clot characteristics of, 891-892
 epidemiology and pathophysiology of, 880-882
 for diagnosis and staging, 888-890
 in high-risk patients, 888
 instrumentation and technique for, 882-887
 of calf veins, 887-888
 of pelvic veins, 888
 vs. other diagnostic methods, 890-891
 Viral infections, in AIDS, neuroradiology of, 617, 619
 Viral pneumonia, in HIV-negative immunocompromised patients, 531
 Viral superinfections, in immunocompromised children, 640-646

Vitreoretinal abnormalities, ultrasonography of, 1108-1109

Vitreous fibers, manufactured, in occupational lung disease, 1128

Volvulus, imaging of, in children, 441-444
plain films of, 422, 424

Vulvar carcinoma, MR imaging of, 796-797

X-linked hypogammaglobulinemia, immune deficiency in, 519

Yolk sac tumors, ovarian, transvaginal sonography of, 724
